

A. VINOTHINI

ASPIRING AGENTIC AI PROFESSIONAL

vinothinivino417@gmail.com | +91 7010123503

PROFESSIONAL SUMMARY

Aspiring Agentic AI professional with hands-on learning experience in Agentic AI, prompt engineering, AI-assisted development, automation, and conversational applications. Built practical projects including a website landing page and portfolio, a hospital appointment chatbot, and a CrewAI-based grammar and spelling correction agent. Eager to apply AI tools and problem-solving skills in an entry-level technology role.

TECHNICAL SKILLS

AI & Automation	Agentic AI, CrewAI, Prompt Engineering, AI Tools & Automation
Development	Python, Streamlit, AI-assisted website creation, Responsive Web Design
Professional	Problem Solving, Communication, Adaptability, English Typewriting

PROJECTS

Website Landing Page & Portfolio

- Created a professional website landing page and personal portfolio using AI-assisted development with Codex. Focused on clean layout, responsive presentation, content structure, and professional web design.

Hospital Appointment Chatbot

- Built a chatbot concept for hospital appointment assistance, designed to support users with appointment-related interactions through a conversational interface.

Grammify AgentBot — CrewAI

- Created a learning-focused grammar and spelling correction agent using CrewAI. The application analyzes user-entered English text and provides corrected grammar and spelling.

EDUCATION

B.E. Electrical and Electronics Engineering | Passed Out: 2018

CERTIFICATIONS

- Website Landing Page Creation — Brand Monk Training Academy
- Typewriting Lower — English

LANGUAGES

Tamil — Native • English — Professional Working Proficiency

AGENTIC AI LEARNING

Completed Agentic AI training and developed practical projects to strengthen understanding of AI agents, prompt engineering, conversational applications, and AI-assisted development.
